RESPONSE TO RESTRICTION REQUIREMENT UNDER 35 U.S.C. § 121

Dear Sir:

This is in response to the Office Action dated August 6, 2002 ("Office Action" or "Paper 10"). Accordingly this response is timely filed upon payment of a fee for a 3-month extension of time.

In the Restriction Requirement dated August 6, 2002, the Examiner stated that there were distinct inventions and required Applicants to elect one invention for prosecution on the merits. The groups set forth in the Restriction Requirement are as follows:

- I. Claims 1-14, drawn to a VEGF antisense and method of inhibiting cancer cell proliferation therewith, classifiable in class 514, subclass 44.
- II. Claims 15-17, drawn to a method of assessing the therapeutic potential of a candidate agent to inhibit cancer cell proliferation via contacting cells exhibiting autocrine growth activity with a candidate compound and detecting VEGF expression, classifiable in class 435, subclass 4.
- III. Claim 18, drawn to prognostic assay for a subject afflicted with a disease comprising detecting in a sample VEGF receptor expression, classifiable in class 435, subclass 7.1.

Office Action at 2.
